Immunoblot Blocking Reagent

(non-fat dry milk)

Catalog # 20-200

Product Description: 20g of non-fat dry milk fortified with vitamin A palmitate and vitamin D₂, containing no preservatives.

Storage and Stability: Stable for 2 years at 4°C from date of shipment. Dry powder.

Applications: Immunoblot Blocking Reagent: This lot was tested by using the reagent (3% milk in PBS) as a blocking reagent for immunoblot analysis with anti-phosphotyrosine (Catalog # 05-321). This blocking reagent shows negligible background unlike many milk-based blocking agents.

**FOR RESEARCH USE ONLY
NOT FOR USE IN HUMANS**
