## Certificate of Analysis

### Goat Anti-Rabbit IgG, HRP-conjugate Catalog #12-348 Lot # 30126

**Immunogen:** Highly purified whole rabbit IgG.

**Specificity:** Specific for rabbit IgG heavy and light chains.

**Species Cross-reactivity:** Rabbit.

**Formulation:** 500 $\mu$ g of immunoaffinity purified goat IgG conjugated to horseradish peroxidase lyophilized from 0.02M Potassium Phosphate, 0.15M NaCl, pH 7.2, 10mg/ml BSA, and 0.01% gentamicin sulfate.

**Rehydration:** Add 500 $\mu$ l sterile, distilled water containing 50% glycerol, to make a 1mg/ml stock solution.

**Storage and Stability:** Lyophilized: Stable for 2 years at 4°C from date of shipment. Rehydrated: Stable for 6 months at -20°C.

**FOR RESEARCH USE ONLY  
NOT FOR USE IN HUMANS**

---

### Quality Control Testing

**Application(s):** Suitable for immunoblotting (western or dot blot), ELISA and immunohistochemistry. A working dilution of 1:1,000 to 1:10,000 is suggested for immunoblotting procedures. Optimal antibody dilution for other applications should be determined by the researcher.
