

Com-DF : Monoclonal antibody to the human Rh D antigen R-phycoerythrin conjugated and monoclonal antibody to HbF FITC Conjugated (ready-to-use)

CERTIFICATE OF ANALYSIS

Catalogue No. MAB3435F-100T

Batch 08061498002

Expiry 29 June 2009

FORMULATION

Phosphate Buffered Saline, pH 7.4, 0.1% sodium azide, 0.2% bovine serum albumin.

Concentration

0.02 mg/mL

PHYSICAL ANALYSIS

Appearance

Clear pink liquid

Odour

Nil

BIOLOGICAL ANALYSIS

Flow Cytometry

Able to discriminate minor population of 0.20% Rh positive and HbF positive erythrocytes. Linear Mean Fluorescence Intensity within 10% of reference.

Reference Batch

08061495604

This certifies that the results obtained for this batch conform to the quality specifications set by our Quality Control division.
