Goat Anti-Rabbit IgG, HRP-conjugate Catalog #12-348 Lot # 29902

Immunogen: Highly purified whole rabbit IgG.

Specificity: Specific for rabbit IgG heavy and light chains.

Species Cross-reactivity: Rabbit.

Formulation: 500 μ g of immunoaffinity purified goat IgG conjugated to horseradish peroxidase lyophilized from 0.02M Potassium Phosphate, 0.15M NaCl, pH 7.2, 10mg/ml BSA, and 0.01% gentamicin sulfate.

Rehydration: Add 500 μ l sterile, distilled water containing 50% glycerol, to make a 1mg/ml stock solution. Aliquot to avoid repeated freezing and thawing.

Storage and Stability: Lyophilized: Stable for 2 years at 4°C from date of shipment. Rehydrated: Stable for 6 months at -20°C.

**FOR RESEARCH USE ONLY
NOT FOR USE IN HUMANS**

Quality Control Testing

Application(s): Suitable for immunoblotting (western or dot blot), ELISA and immunohistochemistry. A working dilution of 1:1,000 to 1:10,000 is suggested for immunoblotting procedures. Optimal antibody dilution for other applications should be determined by the researcher.
