

Statement of Animal Origin

Catalog Number: LC0HCG6S2

Item Description: MSTK C0HC 16DIA 8CELL 2/PK

Based on the information received from our suppliers, some raw materials contain animal derived materials. The information we have received from our suppliers is summarized below:

A raw material contains a tallow-derived material that originates from bovine sourced from the United States, Canada and Mexico. The supplier has also stated the following processing conditions for the tallow-derived material: hydrogenation or hydrolysis at not less than 200 °C for not less than 1.5 hours under pressure, and distillation at 232 °C. The processing conditions meet the requirements of the "Note for Guidance on Minimising the Risk of Transmitting Animal Spongiform Encephalopathy Agents via Human and Veterinary Medicinal Products" (EMEA/410/01 Rev. 2).

A raw material contains a tallow-derived material that originates from bovine sourced from the United States and Mexico. The supplier has stated that the animal is fit for human consumption. The supplier has also stated the following processing conditions for the tallow-derived material: trans-esterification or hydrolysis at not less than 200 °C for not less than 20 minutes under pressure, and distillation at 200 °C. The processing conditions meet the requirements of the "Note for Guidance on Minimising the Risk of Transmitting Animal Spongiform Encephalopathy Agents via Human and Veterinary Medicinal Products" (EMEA/410/01 Rev. 2).
