

## Statement of Animal Origin

---

Catalog Number: CHRFA1PD09

Item Description: ChromaSorb 0.08ml Product Dev Kit

Based on the information received from our suppliers, some raw materials contain animal derived materials. The information we have received from our suppliers is summarized below:

A material that contacts the product during the manufacturing process contains stearic acid derived from tallow that originates from bovine. The supplier states the animals are healthy. The supplier has stated the following processing conditions for the tallow-derived material: trans-esterification or hydrolysis at not less than 200°C for not less than 20 minutes under pressure. The processing conditions meet the requirements of the "Note for Guidance on Minimising the Risk of Transmitting Animal Spongiform Encephalopathy Agents via Human and Veterinary Medicinal Products" (EMEA/410/01 Rev. 2).

A packaging material contains a tallow-derived material that originates from bovine sourced from the Netherlands. The supplier has stated the following processing conditions for the tallow-derived material: trans-esterification or hydrolysis at not less than 200°C for not less than 20 minutes under pressure and saponification with NaOH 12M: Batch Process at not less than 95°C for not less than 3 hours. The processing conditions meet the requirements of the "Note for Guidance on Minimising the Risk of Transmitting Animal Spongiform Encephalopathy Agents via Human and Veterinary Medicinal Products" (EMEA/410/01 Rev. 2).
