Sample Collection:

Serum, Plasma and Cell culture medium may be tested in any of these assays. While all samples are treated as infectious, please do not send any samples with known infectious agents (e.g. HIV, Hepatitis, etc.).

Please refer to the kit protocol for sample preparation methods posted on our website.

Avoid using samples with gross hemolysis or lipemia.

Aliquot and freeze samples within 2 hours of collection at -20°C for short term and at -70°C for long term (>2 months).

Minimum Sample Volume:

We will require a minimum of 150 μL of sample per panel. This is applicable to all sample types.

Serum, plasma and tissue culture are all accepted. For other sample types, please contact the Project Management team for more information: Email: uk_project_manager@millipore.com.

Europe:

To obtain your Introductory Offer Quotation, please complete the appropriate Introductory Offer Quote Request Form and attached Risk Assessment form. You will receive your quotation within 48 hours.

Please Email completed forms to uk_project_manager@millipore.com. Forms may also be faxed to +44 (0)1382 561601. Please mark all faxes FAO Project Management.

Results will be emailed to you within 4 working weeks from date of sample and purchase order receipt. Samples will be stored in-house at -20°C for 3 months from date of receipt and will then be discarded following Biohazard regulations.

This is a **one-time offer** for your evaluation purposes. If you would like more information on this offer or about the instrument, the technology and related kits and services, please contact us at uk_project_manager@millipore.com and refer to the "Introductory Offer."

US & other countries:
