Company Overview

Millipore (NYSE: MIL) is a Life Science leader providing cutting-edge technologies, tools and services for bioscience research and biopharmaceutical manufacturing. As a strategic partner, we collaborate with customers to confront the world's challenging human health issues. From research to development to production, our scientific expertise and innovative solutions help customers tackle their most complex problems and achieve their goals.

Since its founding in 1954, Millipore has expanded its capabilities through strategic acquisitions, targeted capital investments and organic growth, and today offers an extensive portfolio of products and services for customers working in the following areas: Life Sciences, Drug Discovery and Development, Lab Filtration, Lab Water, Upstream Bioprocessing, Downstream Bioprocessing and Process Monitoring.

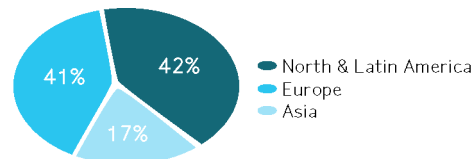

Global Customer Base

- Private research institutions
- Analytical, academic and clinical laboratories
- Biotech, pharmaceutical and contract manufacturing organizations

Revenues

\$1.53 billion (2007)
